Our Philosophy

We believe that every child is unique with a variety of abilities and needs and deserve a safe, healthy and happy childhood. We believe that all children bring gifts and have the right to be valued, accepted and included. We strive to promote early childhood education and we work hard to support children and families to ensure that every child has an opportunity to reach their fullest potential.

Our Program

Anne Ross Day Nursery provides fully subsidized, licensed child care and education for 40 children aged 2 to 6 years. The centre is open from 7:30 am to 5:30 pm from Monday to Friday.

We provide an early learning environment and program based on children's interests, needs and developmental levels. We also offer a variety of activities, experiences and field trips.

Our program is inclusive, so that all children, including those with additional support needs, are able to fully participate. We partner with other agencies to assist the children in our care in their holistic development. We assist in transitioning children from child care to other programs as well as school.

In addition to these services, Anne Ross Day Nursery provides a nutritious hot lunch and two healthy snacks for the children in our care every day.

We are committed to providing high quality education and care to children and families and to continually improve the program that we offer.
