### **Our Philosophy**

We believe that every child has a right to a safe, healthy and happy childhood. We strive to promote healthy early childhood development to support children and families and to ensure that every child has an opportunity to reach their full potential.

### **Our Program**

Anne Ross Day Nursery provides fully subsidized, licensed child care and education for 45 children aged 18 months to 6 years. The centre is open from 7:00 am to 5:30 pm from Monday to Friday.

We provide an emergent curriculum which allows us to plan a program based on children's interests, needs and developmental levels and to offer a variety of activities, experiences and field trips. We also provide a weekly music program that children are welcome to join.

Our program is inclusive, so that all children, including those with special needs, are able to fully participate. We partner with other agencies to assist the children in our care in their holistic development. We assist in transitioning children from child care to other programs as well as to school.

In addition to these services, Anne Ross Day Nursery provides a nutritious hot lunch and two healthy snacks for the children in our care each day.

We are committed to providing high quality care to children and families and continuing to improve the care and education that we offer.
