

FAMILY PHYSICIAN / MEDICAL DIRECTOR 2011-41

Are you interested in working for a health facility that focuses on providing quality care, preventative care, client teaching, chronic disease management, and reproductive health?

Mount Carmel Clinic is a non-profit community health centre whose purpose is to promote healthy inner-city communities. We are looking for a family physician/medical director to work in an integrated, multidisciplinary health and social service workplace.

As an experienced family physician with at least 7 years of clinical practice experience, you are a strong medical expert with experience in communicating and collaborating with multiple internal and external stakeholders, while demonstrating strong commitment to quality improvement, physician engagement, and the strategic directions of community health. An active member of the leadership team, you will help to define the strategic direction for Primary Health programs to ensure that we are providing the highest possible standards of medical care to our community.

In this full-time role (.4 Medical Director and .6 Family Physician), along with our Director of Primary Health Services, you will provide medical and administrative advice and leadership in relation to strategic and operational matters of the organization. You will work collaboratively to provide an empowered and participative work environment where teamwork and professional development flourish. Your demonstrated commitment to quality improvement and your ability to build and maintain relationships at all levels of the organization are critical for success in this role. We offer excellent support staff and are working to implement an EMR in 2012-2013.

QUALIFICATIONS INCLUDE:

- Education and experience in, or willing to obtain education in, health care administration.
- Experience working with the Aboriginal community an asset
- Ability to work within a pro-choice, interdisciplinary environment where respect, professionalism, cooperation, and cultural sensitivity is essential
- Commitment to harm reduction values and population health principles
- Experience or familiarity with implementing 'Advanced Access' models an asset
- Excellent interpersonal skills and superior written communication skills
- Ability to work in an integrated, multidisciplinary health and social service workplace
- Must be eligible for licensure with the College of Physicians and Surgeons of Manitoba
- CCFP certified or eligible

If you are interested in joining an organization that makes a difference, please submit a cover letter and CV to:
